WHAT ADVICE WOULD YOU GIVE TO OTHER WOMEN STARTING IN BUSINESS?

Be open-minded, objective and original. Don't try to copy or compare yourself to others, instead, use them as markers for success and achievements. Expect to be challenged in every way and choose to meet those challenges head on as chance will always favour the prepared mind. No matter what, never get discouraged or lose sight of your inspiration. Adversity is only an opportunity in disguise. No matter how many obstacles or how much rejection you encounter channel that into the determination to succeed. Never stop believing in yourself or your dreams.
